#### **Balance Sheet**

The Company ended the 2014 second quarter with cash and cash equivalents totaling \$41.8 million and no borrowings under its revolving credit facility. In 2014, the Company continues to expect capital expenditures to be between \$12 million and \$15 million and depreciation and amortization is expected to be approximately \$18 million.

#### **2014 Key Strategic Objectives:**

The Company reported progress on its stated strategies:

- **Optimize real estate** to improve store productivity. Year-to-date in fiscal 2014, the Company has closed 11 stores transferring 16% of sales to remaining stores, consistent with past closures. The Company continues to expect to close approximately 15 stores in the fiscal year, primarily in North America. The Company will selectively upgrade stores in conjunction with lease renewals while reducing the cost of capital that is needed for the improvements. In addition, the Company expects to open six to eight pop-up stores ahead of the holiday season.
- **Refine the consumer value equation** by continuing to reposition its marketing programs. In the quarter, the Company expanded its integrated brand building marketing initiatives as it broadened its annual Huggable Heroes program which recognizes charitably-minded kids by partnering with the USO and their “Every Moment Counts” campaign. The elevated marketing resulted in strong consumer demand for its superhero merchandise collection and delivered over 80 million media impressions.
- **Rationalize expense structure** to leverage its SG&A expenses and enhance product margins with end-to-end improvements in its supply chain and ongoing value engineering of product designs. For the first half, retail gross margin increased to 41.6%, a 220 basis point improvement from the prior year and adjusted SG&A as a percent of total revenues was 41.0%, a 60 basis point improvement from the prior year.
- **Build on core competencies and leverage brand equity** into new revenue streams. The Company expects to make continual improvements to its high touch retail service model and customizable product offerings. It expects to lay the ground work to further leverage the strength of the Build-A-Bear brand as it begins to develop new product categories to generate incremental profit and revenue streams.
