Item 2.02. Results of Operations and Financial Condition.

On November 30, 2022, Build-A-Bear Workshop, Inc. (the “Company”) issued a press release setting forth results for the Company’s 2022 third fiscal quarter ended October 29, 2022. A copy of the Company’s press release is being furnished as Exhibit 99.1 and hereby incorporated by reference.

\* \* \* \* \*

The Company reports its financial results in accordance with generally accepted accounting principles (“GAAP”). In the press release furnished as Exhibit 99.1 hereto, the Company has supplemented the reporting of its financial information determined in accordance with GAAP with certain non-GAAP financial measures. These results are included as a complement to results provided in accordance with GAAP because management believes these non-GAAP financial measures help identify underlying trends in the Company’s business and provide useful information to both management and investors by excluding certain items that may not be indicative of the Company’s core operating results. These measures should not be considered as a substitute for or superior to GAAP results.

The information furnished in, contained, or incorporated by reference into Item 2.02 above, including Exhibit 99.1 attached hereto, is being furnished and shall not be deemed “filed” for purposes of Section 18 of the Securities and Exchange Act of 1934 (the “Exchange Act”) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 (the “Securities Act”), as amended, or the Exchange Act, regardless of any general incorporation language in such filing. In addition, this report (including Exhibit 99.1) shall not be deemed an admission as to the materiality of any information contained herein that is required to be disclosed solely as a requirement of Item 2.02.

This Current Report on Form 8-K and the press release attached hereto as Exhibit 99.1 contain certain statements that may be deemed to be “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. All statements in this report and in such exhibit not dealing with historical results are forward-looking and are based on various assumptions. The forward-looking statements in this report and in such exhibit are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in or implied by the statements. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, among other things: statements regarding the Company’s goals, intentions, and expectations; business plans and growth strategies; estimates of the Company’s risks and future costs and benefits; forecasted demographic and economic trends relating to the Company’s industry; and other risk factors referred to from time to time in filings made by the Company with the Securities and Exchange Commission. Forward-looking statements speak only as to the date they are made. The Company does not undertake to update forward-looking statements to reflect circumstances or events that occur after the date the forward-looking statements are made. The Company disclaims any intent or obligation to update these forward-looking statements.

## **Build-A-Bear Workshop, Inc. Announces Record Fiscal 2022 Third Quarter Results With Seventh Consecutive Quarter of Increased Revenue Compared to Prior Year and Raises Annual Guidance**

- **Total revenues increase 9.9% to \$104.5 million compared to the fiscal 2021 third quarter**
- **Pre-tax income increases 25.3% to \$9.9 million compared to the fiscal 2021 third quarter**
- **Diluted earnings per share increase 41.7% to \$0.51 compared to the fiscal 2021 third quarter**
- **Raises fiscal 2022 guidance for both total revenues and profitability**

ST. LOUIS--(BUSINESS WIRE)--November 30, 2022--Build-A-Bear Workshop, Inc. (NYSE: BBW) today reported results for the third quarter and nine months ended October 29, 2022.

Sharon Price John, Build-A-Bear Workshop President and Chief Executive Officer, commented, “We are pleased with our third quarter and first nine months results as we continued to see momentum and consistency in our business with strong brand interest from consumers. Our retail store traffic continues to show double-digit increases leading to year-over-year growth in transactions across geographies. With our fiscal 2022 third quarter, we have now delivered seven consecutive quarters of increased total revenues compared to the prior year’s period, with sustained profitability. With the strong positive trends continuing in our fourth quarter, we are raising our guidance and believe we are on track to deliver the most profitable year in our 25-year history, building on the 2021 results which set our previous record high.

“The tremendous progress that has been made since we instituted our brand-leveraging diversification strategy has been instrumental in fueling our current success and is designed to provide a foundation from which we can scale while driving further transformation and increasing profitable growth,” concluded Ms. John.

---

**Third Quarter Fiscal 2022 Results (13 weeks ended October 29, 2022, compared to the 13 weeks ended October 30, 2021):**

- Total revenues were \$104.5 million, an increase of 9.9% including the negative impact of \$2.5 million due to unfavorable currency exchange compared to \$95.1 million in the fiscal 2021 third quarter;
    - Net retail sales were \$99.2 million, an 8.3% increase compared to \$91.6 million in the fiscal 2021 third quarter with growth in sales from corporately-managed retail stores more than offsetting a decline in consolidated e-commerce demand (orders generated online to be fulfilled from either the Company's warehouse or its stores). The Company noted that consolidated e-commerce demand decreased 29.4% compared to the fiscal 2021 third quarter, as consumers continue to embrace a return to in-person shopping, while its third quarter e-commerce demand showed an increase of 104.7% from the 2019 period; and
    - Commercial and international franchise revenues were \$5.3 million compared to \$3.6 million in the fiscal 2021 third quarter;
  - Gross profit margin was 52.0%, compared to 52.1% in the fiscal 2021 third quarter. The Company mitigated the negative impact of approximately 200 basis points from higher freight costs by leveraging occupancy and distribution costs;
  - Selling, general and administrative ("SG&A") expenses were \$44.4 million, or 42.5% of total revenues, compared to \$41.7 million, or 43.8% of total revenues in the fiscal 2021 third quarter. The 130 basis-point improvement in SG&A as a percentage of total revenues was driven by favorable leverage on fixed expenses due to the increase in total revenues offset by unfavorable currency exchange rate fluctuations;
  - Pre-tax income increased 25.3% to \$9.9 million from pre-tax income of \$7.9 million in the fiscal 2021 third quarter;
  - Income tax expense was \$2.4 million compared to income tax expense of \$2.0 million in the fiscal 2021 third quarter;
  - Net income increased 27.1% to \$7.5 million from net income of \$5.9 million in the fiscal 2021 third quarter;
  - Diluted net income per share rose 41.7% to \$0.51, as compared to \$0.36 in the fiscal 2021 third quarter. This increase was a result of the combination of a profitability improvement and a 9.1% reduction in the quarter-end diluted share count compared to the fiscal 2021 third quarter; and
  - Earnings before interest, taxes, depreciation and amortization ("EBITDA") rose 18.3% to \$12.9 million from \$10.9 million in the fiscal 2021 third quarter.
-

**Nine-Month Highlights (39 weeks ended October 29, 2022, compared to the 39 weeks ended October 30, 2021):**

- Total revenues were \$322.8 million, an increase of 14.6%, including the negative impact of \$4.3 million due to unfavorable currency exchange compared to \$281.6 million in the first nine months of fiscal 2021;
  - Consolidated net retail sales were \$308.0 million, an increase of 13.2% compared to \$272.1 million in the first nine months of fiscal 2021 with growth in sales from corporately-managed retail stores more than offsetting a decline in consolidated e-commerce demand (orders generated online to be fulfilled from either the Company's warehouse or its stores). The Company noted that consolidated e-commerce demand decreased 12.5% compared to the first nine months of fiscal 2021, as consumers continue to embrace a return to in-person shopping, while its first nine-months e-commerce demand showed an increase of 152.0% from the 2019 period;
- Pre-tax income increased 16.7% to \$35.7 million compared to pre-tax income of \$30.6 million in the first nine months of fiscal 2021;
- Income tax expense was \$8.3 million compared to income tax expense of \$7.4 million in the first nine months of fiscal 2021;
- Net income rose 19.0% to \$27.5 million from \$23.1 million in the first nine months of fiscal 2021;
- Diluted net income per share increased 23.6% to \$1.78, as compared to \$1.44 in the first nine months of fiscal 2021. This increase was the result of the combination of a profitability improvement and a 3.9% reduction in the period-end diluted share count compared to the end of the first nine months of fiscal 2021; and
- EBITDA rose 13.4% to \$45.0 million from \$39.7 million in the first nine months of fiscal 2021.

**Store Activity:**

The Company expects to end fiscal 2022 with an increase in total stores in North America inclusive of third-party locations, as it continues to execute its previously announced plans to open 20 Workshops within the fiscal year. Separately, the Company continues to expect to end the year with a reduction in locations within Europe. Combined across geographies, the Company plans to have more total locations at the end of the 2022 fiscal year compared to the end of fiscal 2021 inclusive of third-party locations.

As of October 29, 2022, the Company had 347 corporately-managed stores which reflects two net closures as compared to the end of the fiscal 2021 third quarter with seven net store openings in North America and nine net store closures in Europe.

Through the Company's third-party retail business model, there were 65 locations as of October 29, 2022 with relationships that include Carnival Cruise Lines, Great Wolf Lodge Resorts, Landry's and Beaches Family Resorts, reflecting four net openings in the first nine months of fiscal 2022. The Company's international franchisees operated 66 locations at the end of the fiscal 2022 third quarter reflecting seven net closures compared to the end of the 2021 third quarter.

---

**Balance Sheet:**

At the end of the fiscal 2022 third quarter, the Company had cash, cash equivalents, and restricted cash totaling \$12.0 million compared to \$48.5 million at the end of the fiscal 2021 third quarter. The Company noted that the 2022 third quarter-end cash position as compared to the prior year period reflected the use of cash to repurchase shares of its common stock, pay a special dividend, and increase investment in working capital to support strategic initiatives intended to drive further growth. The Company finished the quarter with no borrowings under its revolving credit facility.

Total inventory at quarter end was \$88.3 million, an increase of \$26.4 million from the end of the fiscal 2021 third quarter. The increase in inventory as compared to the end of the fiscal 2021 third quarter reflects higher on-hand units compared to last year's unusually low level driven by supply chain disruptions and increased freight and other inflationary costs. The Company noted that it is comfortable with the composition and level of its inventory which supports increased consumer demand and critical seasonal products. The Company continues to expect to end the year with total inventory below the 2021 fiscal year-end level.

As of the end of the fiscal 2022 third quarter, the Company had utilized a total of \$4.8 million to repurchase approximately 337,000 shares of its common stock. During fiscal 2022, the Company utilized a total of \$24.1 million to repurchase approximately 1,540,000 shares of its common stock. The Company currently has authorization to repurchase an additional \$46.5 million of its stock under the new \$50.0 million stock repurchase program adopted on August 31, 2022.

In the fiscal 2022 third quarter, capital expenditures totaled \$2.7 million compared to \$3.1 million in the fiscal 2021 third quarter.

**2022 Outlook:**

Reflecting its positive business performance through the first nine months of the year, continued positive fourth quarter trends and its expectation of continued strength during the period, the Company is raising its annual guidance, which includes the impact of unfavorable currency exchange rate fluctuations primarily given the current strength of the U.S. Dollar compared to the British Pound.

For fiscal 2022, the Company currently expects:

- Total revenues in the range of \$455 million to \$465 million, as compared to \$411.5 million in fiscal 2021;
  - Pre-tax income in the range of \$56 million to \$63 million, as compared to \$50.7 million in fiscal 2021;
  - EBITDA in the range of \$69 million to \$76 million, as compared to \$63.0 million in fiscal 2021;
  - Income tax rate in the range of 24% to 25%, excluding the impact of discrete items;
  - Capital expenditures in the range of \$12 million to \$14 million;
  - Depreciation and amortization of approximately \$13 million; and
  - Finish the year with inventory levels below the end of fiscal 2021.
-

The Company's guidance for profit growth considers anticipated ongoing inflationary pressures as well as its plans to mitigate the impact on its margins. The Company noted that its outlook assumes no further material changes in the operations of its supply chain including the ability to receive and ship product on a timely basis, the macro-economic environment or relevant foreign currency exchange rates.

**Note Regarding Non-GAAP Financial Measures:**

In this press release, the Company's financial results are provided both in accordance with generally accepted accounting principles (GAAP) and using certain non-GAAP financial measures. In particular, the Company provides historic and projected EBITDA, which is a non-GAAP financial measure. These results are included as a complement to results provided in accordance with GAAP because management believes these non-GAAP financial measures help identify underlying trends in the Company's business and provide useful information to both management and investors by excluding certain items that may not be indicative of the Company's core operating results. These measures should not be considered a substitute for or superior to GAAP results. These non-GAAP financial measures are defined and reconciled to the most comparable GAAP measure later in this document.
